

Pharmacy Resources

Understand your benefits and save money on prescriptions.

Our preferred retail pharmacy network allows members to save time and money when getting prescription drugs. With this network, members have access to over 36,000 participating pharmacies nationwide.

Prescription drugs covered under your plan

The plan formulary is a list of FDA-approved medications, including brand-name and generic options, as well as medications that need prior authorization, follow a step therapy program, or have prescription refill limits.

To access your plan formulary, log in to your account online at myProvidence.com. You can also find a list of plan formularies online at ProvidenceHealthPlan.com/Pharmacy.

Preferred retail pharmacy cost savings

In most cases, if you choose a preferred retail pharmacy, you may pay less when filling a 30- to 90-day supply of medications. This is because Providence Health Plan has worked with the pharmacy to lower the cost of medication copays for our members.

Visit ProvidenceHealthPlan.com/FindAProvider to find an in-network pharmacy near you.

Estimate your prescription drug costs

Access the cost calculator to find copay and coinsurance information and estimate costs of medications.

- 01** Log in to your account at myProvidence.com
- 02** Navigate to "My Tools"
- 03** Select "Estimate costs" from the drop down

A Specialty Team for specialty medications

Specialty medications are used to treat complex health conditions that require education, monitoring, and handling instructions and often require approval before they can be prescribed. To make sure you have the information you need, you'll have access to a dedicated specialty care team. They'll provide you with extra support, including where to obtain your specialty medication and how to get financial assistance when available.
